

Amazing Archives

The future of our past is ever present

Spring reminds us of a fresh, new beginning. Your Archives is no different. We continue cleaning and organizing our packed three rooms. We are constantly discovering facts and uncovering treasures we didn't know we had - sort of like spotting that unmarked box hiding behind other items in the attic or basement. You might be surprised at what you find!

Roger and I inventoried the items in the old safe and have more things to add to our history. When we catalogue the items from the safe, I will write an article and keep you informed.

Roger and I are working diligently to keep the Archive/History web presence fresh and interesting. We want to add some of the special sermons from our previous pastors. We have a plethora of slides, cassette audio tapes, VHS tapes, 3.5 discs and glass negatives I hope to be able to transfer to digital format. Besides time, talent and patience (which I lack), this labor of love will take equipment that I am trying to borrow to keep expenses to a minimum.

In Service to God,
Jo Ann Elmore.
